Turn right (south) onto AZ-83 and go 21 miles to the Gardner Canyon Road. Turn right on Gardner Canyon Road and continue a quarter-mile to Forest Service Road 163. Turn right on Forest Service Road 163 and continue approximately 5 miles to the junction of 163 and the entrance to Kentucky Camp. Kentucky Camp used to be one of the best kept ghost town secrets as nearly all of the buildings were standing. One of Bill's favorites in his early days. About 20 years ago the forest service decided to restore it as a Ranger Station. Now it is mixed use, but still picturesque. Returning back to AZ-83, turn right (south) and go 4 miles to AZ-82 (Sonoita, about 45 minutes from RCR), then right on AZ-82 and go another 13 miles to Patagonia. Take the first left after entering town, Taylor Avenue, and go one block to Harshaw Road. Turn left onto Harshaw Road/FR 49 (Paved for first 6 miles, then 4WD required) and go 8 miles to Harshaw. You will cross a small bridge designed by Bill, built by the WLB Group. His first after college. Harshaw has several residents but many of the original structures are abandoned and there is an old cemetery. Continue on Harshaw Rd./Forest Rd. 49 another 8 miles to Mowry. The town is a true ghost town and the original structure walls are still standing. Continue another 4.5 miles on Harshaw Rd./Forest Rd. 49 to Washington Camp. The mill structure is right next to the round and several building ruins are visible. Another mile down the road is Duquesne. Several picturesque structures are still standing, but there are residents and some are not too welcoming.

Sunnyside & Parker Canyon Lake

The only ghost town in Southern Arizona with buildings constructed primarily of wood boards. On the inside of one structure the board seams are sealed with a "wall paper" consisting of the pages from World War One era Scientific American magazines, <https://www.legendsofamerica.com/az-sunnyside/>. RCR to I-10 East. Take I-10 east 2 miles to to AZ-83 exit 281. Returning to Dragoon road, head another 13 miles east to Hwy 191. turn right (south) on Hwy191 and go 8.5 miles to the Ghost Town Trail. Continue another mile to Pearce. Technically no longer a ghost town as it has been swallowed up by the town Sunsites, it still has many of the old adobe buildings standing. Continue heading south on the Ghost Town Trail for 8.5 miles to Courtland. Of particular note is an old adobe building standing on the east side of the road which was the jail. Unfortunately about 20 years ago vandals made of with the steel bar windows and about 5 years before that the old steel door vanished. The old mill structure remains along with numerous foundations. Another 5 miles south on the Ghost Town Trail, the dirt road turns right (west) and becomes Gleeson Road. Continue just under a mile to Gleeson. The population varies. Most of the old adobe structures are abandoned, but more and more, these towns are repopulating. <https://www.legendsofamerica.com/az-ghosttowntrail/>. Heading west another 14.5 miles brings you to the outskirts of Tombstone. Turn Left (south) on Camino Rafael and go just over a mile to Fremont Street/AZ-80. We can't give specific directions, as many of the roads are un-named. Here is a website that does a good job of directing you to the Mine Site. <https://www.desertrambler.com/total-wreck-mine.html>. Bill's been there many times, but the last time was about 30 years ago.
